Transforming Analytical Learning in the Era of Big Data

An Undergraduate Summer Institute in Biostatistics
The University of Michigan, Ann Arbor
June 1-26, 2015

This full time 4 week summer institute will introduce undergraduate students to emerging challenges at the intersection of Big Data, Statistics and Human Health. Lectures will be led by a diverse group of stellar biostatistics, statistics, electrical engineering, and computer science faculty at the University of Michigan. Working in teams, students will participate in mentored big data research projects in genomics, imaging or electronic health records. A stipend of up to $2500 is available for successful applicants.
