NOYCE FELLOWSHIP

ROBERT NOYCE TEACHER SCHOLARSHIP PROGRAM

The Noyce Fellowship is a funding opportunity for seniors, graduates, and career changers who majored in and desire to teach science, technology, engineering, or math.

- **$30,000 Stipend**
  This funding is made possible by a grant from the National Science Foundation

- **Summer Research Internships**
  Eligible to participate in competitive summer research internship

- **Teach in underserved high need communities**
  Two-year commitment for adults who seek to make a difference in the lives of young people through social justice and equity

Secondary MAC

MASTER OF ARTS WITH CERTIFICATION

As a Teaching Intern, you will be part of an intensive, full-time program that begins in late June and finishes in mid-June the following year.

- **Earn masters degree in Education and Secondary (6-12) teacher certification**

- **Full-year internship experiences that integrate theory and practice**

- **Small classes, committed colleagues, and excellent teaching**

- **A variety of hands-on experiences including integrating technology into the classroom**
