Process Research and Development Co-op and Intern Program

Genentech's Process Research and Development (PR&D) organization is currently recruiting for positions in the PR&D Co-op and Intern Program for our South San Francisco headquarters and Oceanside facility. Six-month co-op positions will begin in January and in July 2010, and three-month internships will begin in May or June 2010. As a co-op or intern, you will be assigned a project in one of these areas within PR&D:

Cell Culture and Fermentation
Protein Analytical Chemistry
Pilot Plant Operations

Purification
Pharmaceutical and Device Development
Process Development Engineering

**PR&D Business Excellence,
 Strategy and Training**

This program provides a broad perspective and appreciation of the development of new processes, methods and technologies at different production scales in the biotechnology industry.

Candidates applying for the PR&D Co-op and Intern Program should be passionate about science/engineering and thoroughly enjoy the challenges associated with complex problem solving. Candidates must be highly self-motivated and willing to work independently or as part of multi-disciplinary teams that work hard in an atmosphere of casual intensity developing medicines for unmet medical needs. Other qualifications include:

- Enrolled in sophomore year or higher at a university; high scholastic achievement required
- Preferred disciplines include: Chemical and Biochemical Engineering, Biomedical Engineering, Bioengineering, Analytical Chemistry, Biochemistry, Molecular Biology, Microbiology, Biology or related disciplines
- Experience working in research labs or industry is highly desirable

To apply for this position, please email a cover letter and resume to prdcoop2010-d@gene.com with the subject line "**Resume for Co-op/Intern**" AND submit your resume at careers.gene.com (go to 'Careers' tab at top of page and select 'University Recruiting'). In your application, please include:

- Position preference: co-op or summer intern
Candidates interested in co-op positions: indicate January or July start date
- PR&D area preference
- Current GPA

Applications will be reviewed on an ongoing basis through March 2010. For additional information and to learn more about our programs, please visit our website at careers.gene.com.

Genentech is an equal opportunity employer.

  In January 2009, Genentech was named to FORTUNE's list of the "100 Best Companies to Work For" for the eleventh consecutive year.
