

# BECAUSE

We are focused on truly innovative science.

## Process Research and Development Rotational Program

Genentech's Process Research and Development (PR&D) organization is currently recruiting for positions in the PR&D Rotational Program (PDRP) for our South San Francisco headquarters and Oceanside facility to begin employment in August 2010. As a PDRP Associate, you will experience four six-month assignments over the first two years in different areas within PR&D. At the end of this two-year period, each Associate will transition into a position within a specific PR&D area (eligibility for continuing employment is dependent on performance reviews during the four rotations). These areas include:

**Cell Culture and Fermentation**

**Purification**

**Quality Bioanalytical Development**

**Pharmaceutical and Device Development**

**Pilot Plant Operations**

**Process Development Engineering**

This program provides a broad perspective and appreciation of the development of new processes, methods and technologies at different production scales in the biotechnology industry.

Candidates applying for the PR&D Rotational Program should be passionate about science/engineering and thoroughly enjoy the challenges associated with complex problem solving. Candidates must be highly self-motivated and willing to work independently or as part of multi-disciplinary teams that work hard in an atmosphere of casual intensity developing medicines for unmet medical needs. Other qualifications include:

- Recent college graduates (two years or less since graduating from a BS/BA or MS program)
- Disciplines: Chemical and Biochemical Engineering, Biomedical Engineering, Bioengineering, Analytical Chemistry, Biochemistry, Molecular Biology, Microbiology, Biology or related disciplines
- Strong critical thinking, communication and collaboration skills
- High scholastic achievement (include your GPA on your resume)
- Experience working in research labs or industrial internships is highly desirable

To apply for this position, please email a cover letter and resume to [pdrp2010-d@gene.com](mailto:pdrp2010-d@gene.com) with the subject line "Resume for PDRP" AND submit your resume at [careers.gene.com](http://careers.gene.com). Applications will be reviewed on an ongoing basis until March 2010. For additional information and to learn more about our programs, please visit our website at [careers.gene.com](http://careers.gene.com).

Genentech is an equal opportunity employer.

 In January 2009, Genentech was named to FORTUNE's list of the "100 Best Companies to Work For" for the eleventh consecutive year.
