

**Otto C. Richter Memorial Prize**

Otto Richter was a 1923 graduate of the University of Michigan and went on to become a triple Fellow (FSA, FAIA, FCAS). He spent his entire career at AT&T – as such he was an early corporate actuary, with extensive background in the design of their retirement systems. He died in 1959. This prize is given to a graduating senior who has shown the greatest achievement in the study of actuarial mathematics as evidenced by passing of the actuarial professional examinations. The prize was established in 1997 by a gift from the estate of Marion M. Richter.
