The Department of Mathematics and Statistics at Kenyon College seeks to fill a tenure-track position at the assistant professor level beginning July 2020. A Ph.D. in applied mathematics or a Ph.D. in mathematics with an applied specialty is required, as well as prior teaching experience at a U.S. college or university.

Kenyon faculty members are excellent teachers who maintain strong research programs. The successful applicant will expand and enhance the applied mathematics offerings of the department. Our department has a strong commitment to student-centered learning; thus, we are particularly interested in candidates with experience in active learning pedagogies. Ability and willingness to include undergraduates in research is also desirable.

Kenyon College, located on an idyllic campus in rural central Ohio, is ranked in the top tier of national liberal arts colleges, and has a reputation for outstanding teaching and scholarship. We have an increasingly diverse student body of 1750 students from the US and over 40 countries around the world. The Mathematics and Statistics Department is housed in a spacious and well-equipped building. We have eight full-time tenure-track faculty members teaching the full range of undergraduate mathematics and statistics courses. This is a new tenure line, bringing the total number of tenure-track faculty to nine. The department offers a major in mathematics with concentrations in statistics, classical mathematics, and applied mathematics. We also contribute to an interdisciplinary concentration in scientific computing. The typical teaching load is five courses per year. Kenyon offers competitive salaries and a generous benefits package for employees and their family members. All Kenyon faculty have funds available to support travel and faculty development. In addition, startup funds will be available, depending on the research needs of the individual.

Applications should be submitted by **October 8, 2019**, to ensure full consideration. We will, however, continue to accept applications until the position is filled.

Begin the application process by registering and completing the demographic section of the Kenyon College application on this site. All other materials must be submitted electronically via www.mathjobs.org.

A complete application will consist of:

1. Cover letter explaining why the Kenyon College Department of Mathematics and Statistics is a good fit for the applicant. In the letter, candidates should address their
thoughts about teaching diverse populations of students and briefly discuss any strategies they have employed to create an inclusive educational experience;
2. Statement reflecting on the applicant’s teaching and learning experiences;
3. Statement describing the applicant’s research accomplishments and future research directions;
4. Curriculum Vitae;
5. Unofficial Undergraduate Transcript;
6. Unofficial Graduate Transcript;
7. Three (3) letters of recommendation (at least one of which should address teaching).

PLEASE NOTE: In order for your application packet to be considered complete, the demographic section of the Kenyon College application must be filled out AND all application materials must be submitted electronically through the mathjobs.org website.
